

Deb Dagit on disability, diversity

In recognition of Women's History Month and International Women's Day, EARN is dedicating this month's weekly e-blasts to highlighting outstanding women with disabilities.

This week, EARN features Deborah Dagit, renowned corporate diversity expert and former Vice President and Chief Diversity Officer at Merck. EARN recently spoke with Ms. Dagit, who shared her thoughts on the issue of corporate diversity from her perspective as both a diversity professional and a woman with a disability. "I was really fortunate as a person with a visible disability to be given the opportunity to represent my company so visibly and to be trusted as capable in that regard," says Ms. Dagit.
